MEMORANDUM

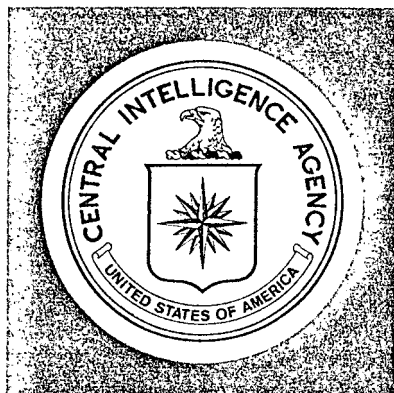

25X1 To:
25X1 From:
Subject: Return of Classified Material.
Date: 6 September 78

Here, at long last are the two classified documents, USSR: End of July Prospects for Grain Production and Trade, No. 174, 25 July 1975, and The Soviet Grain Deficit, 18 November 1975, which I found in a safe (#62711) which we had received for use in Ethics Committee work. The documents apparently had been in the custody of one Tom Saylor who formerly worked on the Hill and is presently, I believe, with the Department of Agriculture (447-5691). The documents have been kept secure since we received them.
